| 13. cheek | - | m) hepatic |
| 14. rib | - | n) ocular |
| 15. ear | - | o) oral |
| 16. eye | - | p) cardiac |

14 b) Some verbs describing the functions of various organs are listed below. Give the nouns describing the same functions. Which systems and organs of the body are involved in performing those functions?

e.g. to bite (bit, bitten) – **a)** a bite, biting; **b)** digestion: teeth, tongue, upper and lower jaws etc.

to breathe;	to chew;	to contract;	to digest;	to excrete;
to hear;	to move;	to see;	to smell;	to suck;
to support;	to taste;	to touch;	to walk;	to work

Use either of them in sentences of your own:

e.g. Some people find it difficult to get rid of biting their nails. Have a bite of this delicious sandwich.
